I checked with Cadmus. They feel pretty confident that they can get us a first draft of the response to comments document with the number of hours left. Now that we are not sending a letter to all of the tribes, that frees up some additional contract hours that can be shifted to the response to comments work.

Hi Valois: as additional contractual hours from this funding will not be available until March, please let me know if you think this timing could impact our projected timing.

Douglas

I'd say it's pretty likely. There have only been two other ideas floated so far (\$ for multiregional database, and \$ for software licenses for work on no migration petitions), but those ideas are not as directly related to permit processing as your Dewey Burdock work. We will see if any other ideas come in.

Thanks Colin. Given what other Regions may have requested, any idea whether the amount we are requesting can be covered in whole or in part by OGWDW?

Douglas,

The \$200k is not confirmed yet. We will not have a read on our budget until the end of this month.

Hi Douglas,

I'm gather you are referring to the ~\$200k that I was discussing on the most recent call. I do remember you mentioning you would likely need extra \$ for the Dewey Burdock work. Let me confirm. I will get back to you asap.

Thanks,

Hi Colin: could you confirm the availability of these funds earmarked for backlogged UIC permits? We are requesting an additional \$90,445 which will help expedite final Class III and V permit issuance for Dewey Burdock.

Let us know if you have any questions, etc. Our COR (Bruce) can be in touch with Nancy Parotta as a next step.

Douglas

Douglas,

This PWS shows the additional tasks for the remainder of this option period (thru June 30) and reflects updated "past-tense" language clarifying what has already been done. (We're also working on continuing this effort, if necessary, into the new option period date after June 30.) I made one simple edit that shows the whole option period phase, and attached it here.

Based on the labor category and estimated number of labor hours the IGCE is ready to submit.

Thanks Valois.

Bruce: can you let us know if you have any edits, etc. to this updated WA? I would like to confirm with OGWDW (i.e., Colin Dyroff) asap their willingness to still cover these costs.

Sarah and Cynthia: fyi.

Hi Bruce,

Attached are the updated PWS and IGCE to add \$90,444.97 to Cadmus WA 4-96. I also added new Subtask 4.4 under Task 4 to expand the scope of work a little. All the work is addressed by the existing SQAPP as stated under the QA section of the updated PWS. Please let me know if I can help with any additional documents we need to prepare.

Douglas, I am copying you so you can see how much money we are asking to be put into the contract.

Thanks!
